ABOUT US

STADLERS CORP FZE was founded on the principles of trust, commitment to excel, and quality customer service. We are an engineering company and capital equipment suppliers of CNC Cutting Systems, Specialized Material Handling and Storage Equipment. Based in Dubai and Sharjah, we provide equipment, technical support, installation and spare parts for machinery manufactured in Europe and USA. We are positioned to be a leading supplier of quality service based on solutions for customers involved in manufacturing.

With sales and service all over GCC countries we are able to meet your need for equipment or service within the shortest time. Stadlers always endeavors to provide the most cost effective solutions that deliver the highest reliability and product quality. Manufacturers are expected to pass stringent quality and reliability tests under our supervision, and we ensure the equipment you receive has been proven and tested on your behalf. The company has extensive experience in providing technical support to customers in the entire GCC. We are positioned to be a leading supplier of quality service based solutions for all our customers involved in manufacturing.

With the support of the group, we provide all solutions in production machinery, robotic assembly lines, software, hardware and quality control in industries such as Steel manufacturing, steel fabrication, stone (marble & granite), aviation, oil & Gas, plastic, process industry and many more. Our repeated Clients include the leaders in their respective industries. Improvement in production and product quality has been achieved by end user customer factories using our expertise.

SPARES AND SERVICE DIVISION

All Stadlers sold equipment are provided with free service for the first year and warranty from one to five years. Are you looking for genuine original consumables spare parts for your CNC Plasma, Laser, Oxyfuel and Waterjet cutting machines. Stadlers hold the largest audited stock of genuine consumable at our facilities for immediate dispatch.

We provide the right solution on time, ensuring the lowest down time for equipment service/repair. Stadlers Corp FZE operates a dedicated team of certified factory trained service staff who are trained and have thousands of hours of experience on repairing high technology plasma and waterjet cutting systems or Lifting Equipment and providing solutions in mechanical, software and electrical related issues. Stadlers offers Annual Maintenance Contracts (AMC) and we maintain huge stock of original spares and consumables.
