

# ZICAKE

Water Jet Cutting Machine

FOOD PRODUCTS  
FROZEN OR FRESH

With a **vision** camera and a powerful software, **ZICAKE**, detects automatically the position of the materials to cut.

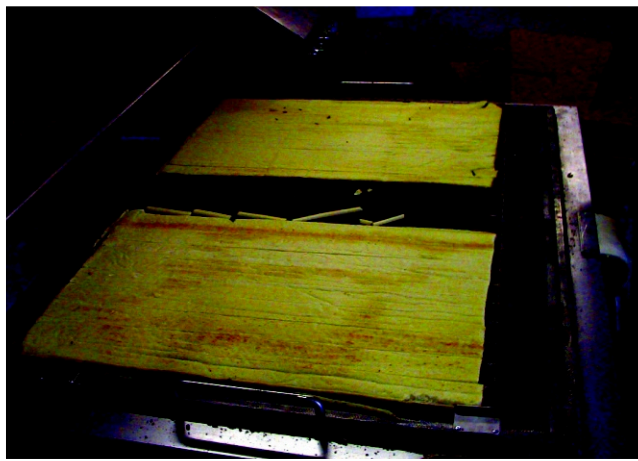

## TECHNICAL CHARACTERISTICS

- ▶ Cutting table useful area: 900 X 600 mm
- ▶ Velocity: 60 meters per minute
- ▶ Vision System for the reading of the material position
- ▶ Material optimization automatic system
- ▶ Exhausting system
- ▶ Trolley with 6 stainless steel rack
- ▶ CAD system do draw any profile

## KEY BENEFITS

- ▶ Cuts any profile shape curve or lines
- ▶ Material optimization automatic system
- ▶ Cut capacity up to 100mm in thickness
- ▶ Make new products daily
- ▶ No cutting dies required
- ▶ Safe and clean cut
- ▶ High cutting quality
- ▶ Cutting tool never touches the products
